

The image features a background of medical equipment, specifically several ECG monitors with multiple channels of heart rate data. The monitors are white with blue accents and are arranged in a row. A large, semi-transparent red circle is overlaid on the center of the image, containing the text 'JOHARI medtech' and 'Brand Credentials'. The overall aesthetic is clean and professional, with a focus on medical technology.

JOHARI®

Brand Credentials

# About Johari

India's 'Blue City' Jodhpur is famous for its mesmerizing landscapes, towering forts and warm hospitality. In the midst of this vibrant culture, however, also lies a throbbing entrepreneurial spirit. Johari is a proud behemoth born of this legacy.

Founded over 40 years ago in India, JDHL was born from a desire to make lives better. We made a promising start in 1979 and have come a long way.

# Brand Belief

We pursue

zero side effects  
zero environmental impact  
zero manufacturing defects

Adding creativity and  
innovations

# Our Expertise

# One of the leading electro-medical devices manufacturers in India

For over 40 years, we have supported the creation of world-class medical and healthcare devices by offering integrated design and manufacturing services.

With a state-of-the-art manufacturing setup located in India, a dedicated R&D center in Europe and a distribution center in the U.S., Johari Digital is strategically positioned to serve business partners around the globe.

100,000

Products Installed Worldwide

500

Active Customers

145

Commercialized Products

# Our pillars of expertise

## Design and Engineering

With our integrated design services, we assist in end-to-end product development and engineering whilst also accelerating time to market.

## Contract Manufacturing

We support the creation of world class digital medical and healthcare devices by offering integrated design and manufacturing facilities.

## Regulatory and Certification

We offer strategic guidance at every stage of the product development process.

# Design and Engineering

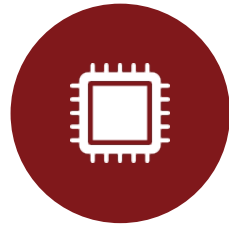

With integrated design services, we bring your product to life by way of conducting end-user research, product engineering and prototyping. Our design and engineering team in Serbia collaborates with the product engineering team in India, to provide a wide range of services.

- Industrial Design
- Electronic Design
- Software Design
- Mechanical Design
- Design For Manufacturing
- Prototyping

# Contract Manufacturing

We leverage our years of experience to develop a go-to-market strategy for your product with expert guidance on :

PCB Assembly & SMT

Box Build and Precision Machining

Product Integration

Packaging and Labeling

Supply Chain Management

# Regulatory And Certifications

We offer strategic guidance to medical device companies pursuing commercialization by developing a global regulatory strategy.

GMP

US FDA

ISO 13485:2016

CE

MDSAP

BIS

We help our partners get mandatory regulatory approvals and certifications.

# Industries We Serving

With 100,000+ product installations worldwide, our expertise in medical device manufacturing cuts across industries.

Bio Science

Medical Diagnostic

Hospital Equipment

Physiotherapy

Medical Aesthetics

Wellness Industry

# Full Service OEM / ODM and Contract Manufacturing

# DNA, RNA Extraction Homogenizer - Life Science

*Production commissioned by a leading US-based establishment for global distribution since 2006*

OBJECTIVES	SOLUTIONS	IMPACT
<ul style="list-style-type: none"><li>• Redesign of patented equipment</li><li>• Enhance performance usability</li><li>• Optimise cost</li></ul>	<p>For the 6<sup>th</sup> generation, we re-imagined the product for improved performance via</p> <ul style="list-style-type: none"><li>• Industrial Design and Housing</li><li>• Re-Engineering</li><li>• Certification</li><li>• Packaging</li><li>• Kaizen</li></ul>	<ul style="list-style-type: none"><li>• Set a benchmark of its aesthetic design, usability and performance with reduced cost.</li></ul>

# Bio-chemistry - Microscope with Artificial Intelligence and Deep Learning

*An Indian start-up which builds intelligent screening solutions to aid diagnosis.*

OBJECTIVES	SOLUTIONS	IMPACT
<ul style="list-style-type: none"><li>• Develop a digital microscope based on raw technology with AI and cloud-computing built-in.</li><li>• Take the microscope from concept to manufacturing which involves 3D imaging (x,y,z movement).</li></ul>	<ul style="list-style-type: none"><li>• Industrial design re-engineered to reduce processing TACT time and footprint of economical liquid injection moulding (low volume production).</li></ul>	<ul style="list-style-type: none"><li>• Dramatically improved speed, accuracy and consistency of numerous screening processes.</li><li>• Improved quality of healthcare delivery</li></ul>

# Medical Waste Disinfectant and Sterilization Equipment

*One of the most efficient and effective solutions for hospitals to sanitize and disinfect bio-waste using microwave technology.*

OBJECTIVES	SOLUTIONS	IMPACT
<ul style="list-style-type: none"><li>• To build a state-of-the-art device using dated technology while achieving manufacturing excellence.</li><li>• Build a modular solution that is scalable to high-capacity equipment.</li></ul>	<ul style="list-style-type: none"><li>• User friendly design and improved aesthetics of product.</li><li>• Cost optimization</li><li>• Multiple models developed</li></ul>	<ul style="list-style-type: none"><li>• Now a mandatory device for hospitals.</li><li>• Overcame a traditional, expensive and long process cycle.</li><li>• Multiple applications developed.</li></ul>

# Body Contouring Device

*Production commissioned by a global supplier of world-class medical aesthetic systems.*

OBJECTIVES	SOLUTIONS	IMPACT
<ul style="list-style-type: none"><li>• Develop a new product for the global market based on existing technology.</li><li>• Achieve excellence in design while ensuring high performance.</li></ul>	<ul style="list-style-type: none"><li>• End-to-end design and manufacturing of product.</li><li>• Global regulatory compliance (USFDA 510K &amp; CE).</li></ul>	<ul style="list-style-type: none"><li>• Expansion of geographical market areas by client.</li><li>• Enhanced performance and results.</li></ul>

A range of  
world-class  
offerings

# Physiotherapy and Rehabilitation

## X-Trainer

Powered Muscle Stimulator  
Neuro Muscular Rehabilitation

## Winstim

Combotherapy  
Electrotherapy + Ultrasound

# Medical Aesthetics

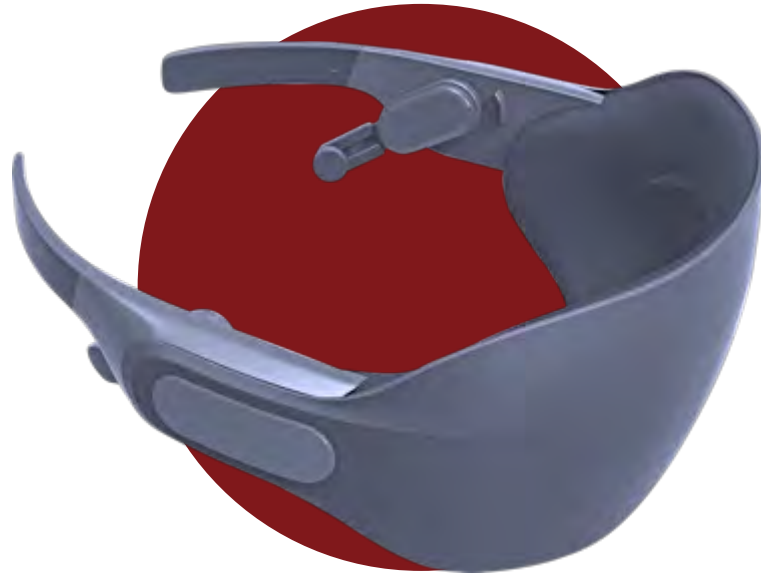

## Hilipo Contour

E-Stim Technology For Body  
Contouring and Aesthetic

# Wellness- CES Technology (Cranial Electrical Stimulations)

## Nishcalm Wearable

Wellness Gadget of  
CES (Cranial Electrical Stimulations)

## Myocalme

Hand Held Device for  
CES (Cranial Electrical Stimulations)

# The Team

**Satyendra Johari**  
Founder, Chairman

**Nisha Johari**  
Co-Founder, Managing Director

**Dusan Todovic**  
CTO

**Tejas Shah**  
Director, International  
Sales, USA

**Dilkash Mohammed**  
Business Development  
(Technology)

**Ravinder Bhan**  
Director, Strategy

**Preetesh Bhandari**  
COO (Interim)

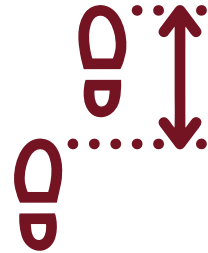

# Our abiding values

## Authenticity

Being genuine and transparent with our stakeholders.

## Extra Step

Going the extra mile to innovate and succeed.

## Respect

Treating everyone with respect and courtesy.

## Customer and Vendor Delight

Steadfast in our commitment to customers and vendors.

## Quality

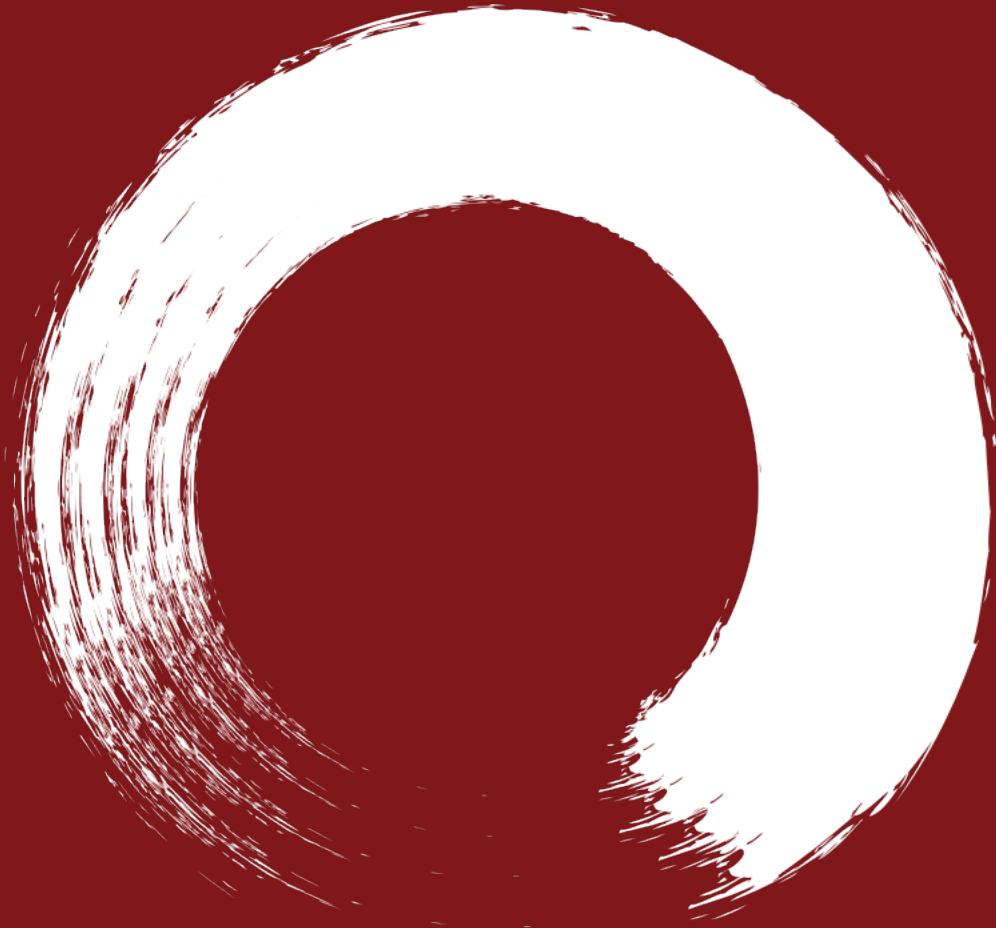

Ensuring excellence in quality standards, technology and products.

# Awards and Recognition

- India SME 100 Awards 2019
- Udyog Ratna Award 2018 - Govt. Of Rajasthan
- Best Anchor - Healthcare & Pharma - 2019 - Dun & Bradstreet
- Best MSE Award - SBBJ Rajasthan
- Best Woman Empowerment Award - Bharat Petroleum
- Best Woman Entrepreneurship Award - Entrepreneurship Development Cell, CGI, Jodhpur
- Woman Pride Award - ICSI
- Excellency Award - Times Group
